From the desk of the Principal.....

In the vortex of the globalized world, conventional educational and learning system has become quite obsolete. No doubt, at the fag end of the seventies of the twentieth century, when Rangapara College was established, the conventional education aiming at the development of intellectual capabilities was the vogue of the day. But the visionary founder of the college set one of the missions of the college as 'to create environment for holistic development and growth of our students and teachers.' With the advent of the twenty first century, holistic development of the students has become a global phenomena and no student will be accomplished enough to stride ahead without acquiring a holistic approach to the learning process.

Rangapara College in its endeavour to make its students adept to the contemporary global society, engages them in evolving physical capabilities, intellectual abilities, mental abilities, emotional understanding and social skills. NSS activities, Educational excursions, Seminars, Group Discussions, Sports, Cultural and Literary Activities, Health Awareness Camps, Community Services in adopted village and orphanage, etc. are some of the activities carried out by the students and teachers of the college. This photo bulletin is a humble effort to depict the diverse activities of the students of the college in varied fields during the year 2019 - 20.

I wish, Rangapara College will achieve its mission of holistic approach to teaching and learning process in the coming days.
