Semester-IV	Arts	Honours	Graduation	English	2022-25	3	3	3	4	4	4	Teacher's have been doing very well and working on students very often because they care about us and our future. I'm also a student and I've been treated very well by them. The teacher's always try to do their best and they attend the classes regularly but it is the students who don't appear very much in classes. Still, our teachers giving their 100% of interest in teaching more than some of students, who don't care about studying that much. The teacher's not only teach us only about our studies but also they guide us to become mature and a good in every way by their examples. I personally very much appreciate their hardwork. I am lucky enough to be their student.
