ON
POPULAR TALK ON PLASTIC POLLUTION ON THE OCCASION OF
WORLD ENVIRONMENT DAY, 2023

THEME – BEAT PLASTIC POLLUTION

Organized by Xeuji, the green club Rangapara College in association with Regional Pollution Control Board, Tezpur.

Rangapara College in association with the Regional Pollution Control Board, Tezpur celebrated the World Environment Day with two days long programme. On 4th of June 2023, an art competition was organized for the school students of Rangapara and nearby areas. As the number of students were too high (202), hence they were divided into 3 categories. the 1st group consist of the students belongs to class I-IV, the second group from class VI-VIII and the last group was from class IX to above. On the second day i.e..5th June 2023, a plantation drive was initiated by Mr. Jayanta Saharia, Regional Executive Engineer, Regional Pollution Control Board, Tezpur. After plantation drive an invited talk was delivered by Prof. A.K. Das from the dept. of Environmental Science, Tezpur University. In his talk Prof. Das emphasized on the heavy metals and their bio-accumulation which can harm the mankind. He also advised to the audience to cut down the use of plastics and its related product as they are non-biodegradable and can last for approximately 600 years without any loss.

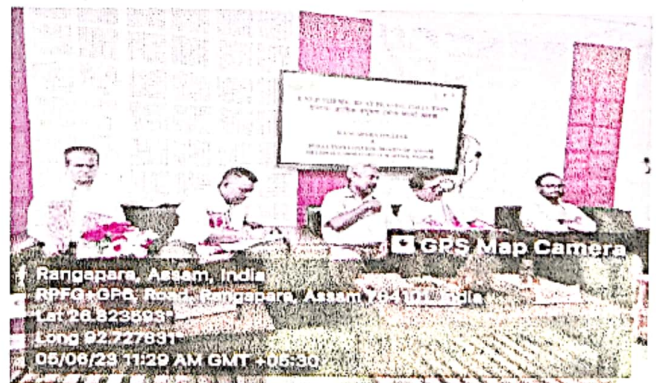

Winners from the 1st day's art competition were awarded in the open meeting which was presided over by Dr. Ranjan Kalita, Principal Rangapara College. After the meeting, plant sapling was donated by the college authority provided by the forest dept. of Amaribari Range Forest Division.
