

Celebration of World Environment Day in Rangapara College in association with Regional Pollution Control Board, Tezpur

Rangapara College in association with the Regional Pollution Control Board, Tezpur celebrated the World Environment Day with two days long programme. On 4th of June 2023, an art competition was organized for the school students of Rangapara and nearby areas. As the number of students were too high (202), hence they were divided into three categories. The first group consists of the students belongs to class I-V, the second group from VI-VIII and the last group was from IX to above. After the art competition, a plantation drive was initiated by Mr. Jayanta Saharia, Regional Executive Engineer, Regional Pollution Control Board, Tezpur.

On the second day i.e., 5th of June 2023, an invited talk was delivered by Prof. A.K. Das from the Dept. of Environmental Science, Tezpur University. In his talk Prof. Das emphasized on the heavy metals and their bio-accumulation which can harm the mankind. He also advised to the audience to cut down the use of plastics and its related product as they are non-biodegradable and can last for nearly 600 years without any loss.

Winners from the first day's art competition were awarded in the open meeting which was presided over by Dr. Ranjan Kalita, Principal, Rangapara College. After the meeting, plant saplings were donated by the college authority provided by the forest dept. of Amaribari Range Forest division.
